**Chellaram Diabetes Institute and Blue Circle Foundation has organised a
"RUN FOR DIABETES" - A 3 km Marathon**

Date: 8th March 2020 | Time: 6.30 am | FLAG OFF: Marriott gates

About Chellaram Diabetes Institute

Chellaram Diabetes Institute, a unit of Chellaram Foundation, was established in 2010 with the main objective of creating an IMPACT on the rising cases of Diabetes in India. This objective is sought to be achieved through main pillars - Patient Care, Education, Awareness, Outreach, Research and Publication.

Chellaram Hospital - Diabetes Care and Multispecialty

Operational since 2010, this state of the art diabetes care and multispecialty hospital in Pune has been consistently ranked among the best in India for providing diabetes care.

Visit: www.cdi.org.in

Education

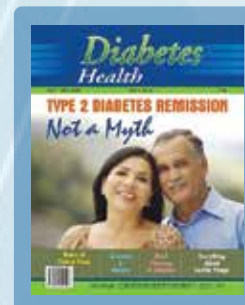

The thrust is on the development of bespoke educational courses, both classroom as well as online, for building the capacity of doctors and other healthcare professionals.

To access online courses visit: www.cdiacademy.org.in

Diabetes Health

A patient-friendly bi-monthly English magazine called "Diabetes Health" since 2011 aims to empower patients with diabetes to take charge of their condition through awareness on a range of diabetes-related issues.

Visit the new digital platform at: www.diabeteshealth.co.in

Rural Outreach Program

A mobile clinic-based rural outreach program providing advanced diagnostics and basic awareness of Diabetes to the underprivileged rural population.

Visit: www.cdi.org.in

Research

Studies are being conducted at Chellaram Diabetes Research Centre for diabetes research. In addition CDRC has funded six proposals of approximately Rs. 2.8 crores from all over India under the "Innovation Grant 2021". The second call for proposal is under review, and 71 submissions are under consideration.

For more details visit: www.chellaramresearch.org

Publications

CDI publishes an open access, peer reviewed, scholarly flagship journal "Chronicle of Diabetes Research and Practice" dedicated to publish both clinical and basic science articles which aims to make beneficial impact on the diagnosis and management of diabetes and related disorders.

To access the online journal issues visit: www.cdrpj.org
